### Senior Infrastructure Engineer Position at SWA

SWA are looking for an experienced and ambitious Infrastructure Engineer to join our well established Civil and Structural design team based at our head offices in Wigan. In addition to a competitive salary, flexible working hours and on-site parking, we can offer the opportunity to work on a number of exciting commercial and nuclear sector projects and the prospect of future career development with our company.

The successful candidate must have the following skills and capabilities:-

- A hardworking and reliable person with the ability to deliver work to a high standard either working within the project design team or alone.
- Experience of roads and sewer design to all relevant codes, standards and statutory agreement including S38, S104, S106, S115, S118 & S278 works.
- Experience in the production of Flood Risk Assessments and SUDS design to PPS25.
- Ability to undertake site surveys, feasibility studies and service appraisals
- Must be proficient in Micro drainage, PDS, WINDES, Civils 3D and AutoCAD
- Familiarity with general Health and Safety at work regulations and CDM Regulations 2007
- Minimum HNC in Civil Engineering
- Excellent communicator with the ability to project manage, make commercially sound decisions and contribute to project tendering and company business development.

Interested candidates should submit their resume to [HR@sandersonwatts.com](mailto:HR@sandersonwatts.com) by 2 April 2021. Shortlisted candidates will be interviewed by MS Teams or Zoom.
